The 3 Series Sedan model line will expand starting with July production with the addition of the highly anticipated xDrive variants for the 328i and 335i, as well as the launch of the ActiveHybrid 3.

The 328i xDrive and 335i xDrive models will be equipped with the same powerful and fuel-efficient engines as the 328i and 335i models. The 328i xDrive and 335i xDrive vehicles will also have the same standard equipment profile as the rear-wheel drive models. Please note that the 328i xDrive and ActiveHybrid 3 will only be available with an 8-Speed Sport Automatic Transmission, no manual transmission will be available. The 335i xDrive will be offered standard with the 8-Speed Sport Automatic Transmission, but will be available with Manual Transmission (ZMA).

The combined horsepower of the gas engine and electric motor is 335 hp and 330 lb-ft of torque. The ActiveHybrid 3 accelerates from 0-100 km/h in only 5.4 seconds. The electric driving range is 4 km, with a top electric speed of 60 km/h (in ECO PRO mode).

The ActiveHybrid 3 will have the same equipment profile as 335i, with the exception of:

- Modern Line standard.
- 18" wheels Streamline style 419 (2P4) standard.
- iDrive screen with hybrid-specific display.
- No Sport Suspension (704) available.
- No Active Cruise Control with Stop&Go (5DF) available.

Both the xDrive and hybrid models will come standard with Auto Start/Stop functionality and Driving Experience Control with ECO PRO. Fuel economy figures will be released closer to market launch.

For the 320i, MY13 begins with July production. No change from the MY2012 model.
