## BMW ConnectedDrive

### March / April 2014 Equipment Change - Bluetooth Audio Streaming

As of March / April 2014 start of production, Enhanced USB & Bluetooth plus Smartphone Integration (6NS) will not be standard on the following MY2015 models:

- 6 Series (all)
- ALPINA B6 xDrive Gran Coupe
- 740Ld xDrive Sedan
- M3 Sedan
- M4 Coupe
- M6 (all)

Instead, Hands-free Bluetooth and USB audio connection (6NH), now including Bluetooth Audio Streaming, will be standard.

Also as of March / April 2014 start of production, 6NS will not be included in the Technology Package (ZTP) or with Navigation system w/ touchpad (609) on the following MY2015 models:

- 4 Series Gran Coupe
- X3
- X4

Hands-free Bluetooth and USB audio connection (6NH), including Bluetooth Audio Streaming, will also be standard on these models.

This equipment change frees up desirable storage space in the center console. Please, however, advise your clients that, in order to get a snap-in adapter (sold separately) and the following features included in [Enhanced USB & Bluetooth plus Smartphone Integration](#), they have to purchase 6NS as an Option:

- Smartphone Integration - requires an optional snap-in adapter (sold separately)
- Secondary Microphone
- [Mobile Office](#)
- Second Phone via Bluetooth
- Message Dictation - additional service costs apply, payable to Nuance

Visit [www.bmwusa.com/bluetooth](http://www.bmwusa.com/bluetooth) for a list of Message Dictation compatible phones.

Please refer to the table below detailing the features available in 6NH & 6NS:

| MY2015 Bluetooth / USB Function  | 6NH     | 6NS      |

<sup>1</sup>N/A X1 & Z4.

<sup>2</sup>Not available on X1 & Convertibles (incl. Z4).

<sup>3</sup>Please see [www.bmwusa.com/bluetooth](http://www.bmwusa.com/bluetooth) for a list of [Mobile Office](#) compatible phones.

<sup>4</sup>Requires optional snap-in Adapter (sold separately).

\*Also, with 609 w/o 6NS.

Please refer to MY2015 Pricing Guides for pricing information.

**Important Note: Retrofitting a baseplate after initial vehicle build will not duplicate the functionality from Option 6NS.**
