

Check all options that you would like coded to your vehicle, please note that some options are dependent on your vehicles packages.

- ☐ Mirror's fold when car is locked with key fob or comfort access ridges. (Will auto unfold on unlock)
- ☐ Roll windows up by holding lock on key fob or comfort access ridges.
- ☐ Disable legal disclaimer on navigation system and cameras
- ☐ Close trunk via key fob (only on cars with comfort closing trunk)
- ☐ Driver's door unlocks on engine stop, only requiring single pull to unlock door
- ☐ DVD In Motion (allows DVD to play on LCD while car is moving)
- ☐ Disable Auto Start Stop functionality on startup automatically
- ☐ Enable tire temperature and pressure readings in iDrive
- ☐ Disable amber side markers (cleaner appearance, only angel eyes show as DRL)
- ☐ F1 Euro Blinking Brake Force display (tail lights will flash under hard braking)
- ☐ Digital Speedometer on instrument cluster
- ☐ Show actual speed on analog speedometer (the car shows approx 3-5mpg faster then you are actually going by default)
- ☐ Use rear view camera at any speed
- ☐ Disable seatbelt reminder chimes
- ☐ Turn signals in HUD
- ☐ Automatically enable High Beam Assist when car starts
- ☐ A/C Remembers on/off state (A/C will not auto turn on if you previously had it off)

There are more options available that can be discussed during your coding session, these are the most popular coding options.
